

Cross fold has never been so **easy**

**WHAT IS?** NEO CROSSFOLD is the cross folding unit designed to automate the finishing of drawings in output from any folding machine. Neo CrossFold is the ideal solution for service bureaus, designers and offices with medium/high volumes of printed drawings in A4 size.

## Main features

**Neo CrossFold** gets adapted to any online folding machine in the market, including the different NeoFold versions. The combination with the NeoFold EB 1100 Online Kit allows the creation of a fully automated workflow from printing to folding and delivery of the finished sheet without manual intervention.

## Options and accessories

NeoCrossfold does not require additional accessories to the already comprehensive standard equipment.

## Datasheet
